Data Sources

Data for hazardous air pollutants and toxic releases is taken from the U. S. Environmental Protection Agency (EPA) Toxic Release Inventory (TRI). For more information see: <http://www.epa.gov.tri/>

Data for other emissions and generation is taken from EPA Office of Atmospheric Programs, eGRID (Emissions and Generation Resource Integrated Database) database, 2007. For more information see: <http://cfpub.epa.gov/egridweb/>

Note: The data provided includes only generation and emissions from power plants owned by the utility. It does not include generation or emissions from power purchased by the utility and distributed to its customers.
